## Five-Year Service Quality Improvement Plan

All West Communications –WY 512290

### Narrative Description

The Company has plans for a number of specific improvement projects for 2015, including new line extensions and equipment installations, cable and other equipment additions and upgrades, and maintenance of existing facilities. These projects will significantly improve voice service coverage, broadband access and speeds, and the overall capacity of the Company's network. From 2016 to 2019, the Company's service quality improvement plans are much less definite due to the uncertainties stemming from the financial impact of USF/ICC reforms. Nevertheless, the Company has evaluated its network carefully and intends to continue making improvements assuming high-cost support mechanisms continue at no less than current levels in the years 2014 and beyond.

Specific capital improvement projects are set out in **Attachment 1**, 5-year Service Quality Improvement Plan. **All West Communications is currently completing several FTTP projects that will bring more reliable and increased bandwidth capabilities to a greater number of our current and future subscribers. We are also upgrading our backbone and middle mile facilities in order to accommodate this increased demand for bandwidth. We are continuing to migrate to an all IP network with additional investment in general support facilities and equipment along with transmission, cable, and supporting facilities.**

As set out in **Attachment 1**, the Company estimates that its total capital expenditures in 2015 within the State of Wyoming will be approximately \$160,000. The Company estimates that its service quality improvements planned for 2015 will serve a population of approximately 706 and cover an area of approximately 331 square miles.

**Attachment 1** also sets out the projected capital expenditures, population and area served for the years 2016-2019.

The aggregate dollar estimates stated above, as well as the projections set out in **Attachment 1**, are the Company's current estimates based on budget forecasts. Projections of this sort are by nature uncertain and invariably change by the time projects are completed. The Company also notes that, from year-to-year, the number and size of network improvement projects change, particularly as the Company approaches completion of network expansion and upgrades throughout its service territory. Therefore, the total capital expenditures and operating expenses will vary year-to-year regardless of the amount of USF disbursement received in each year.

## WYOMING TELEPHONE ASSISTANCE PROGRAM

The Wyoming Telephone Assistance Program helps low-income residents by providing partial discounts on monthly local basic phone service and one-time hook up fees. In order to qualify for the program, your income must be at or below 130% of poverty (see back), or you must qualify for one of the programs listed in below.

In order to receive the benefit, you will need to complete the following steps:

1. Complete and sign the form below.
2. Return the form to the address indicated on the bottom of the form.

Benefits start on the date the local telephone company receives your signed application. It will take approximately 30 days from the date of application for the discount to appear on your telephone statement. Benefits will stop when you no longer qualify for the public assistance program indicated or you no longer qualify for the minimum income level.
